

USPTO PATENT FULL-TEXT AND IMAGE DATABASE[Home](#)[Quick](#)[Advanced](#)[Pat Num](#)[Help](#)

Stopwords

Stopwords are terms that appear so frequently in patent text that they lose their usefulness as search terms. These stopwords occur in the following fields in the US Patent Full Text Database:

Field Name	Field Code
Abstract	ABST
Claim(s)	ACLM
Description/Specification	SPEC
Government Interest	GOVT
Other References	OREF
Parent Case Information	PARN
Title	TTL

The following words are considered “stopwords” and are not searchable terms in the US Patent Full Text Database. Although they are not indexed as search terms, they will be displayed in your search results.
